

Website Launch Announcement

We're super excited to announce the release of our website!

Learn more about the new Green Era Hub (GEH) network within the Horizon Europe framework, which started in September 2022.

The GEH will provide clear perspectives for ERA-Nets, ERA-Net Cofunds, national research funders and researchers in the Agri-Food and Biotechnology sector to find dedicated support at the level of information, communication, cooperation, networking and joint transnational funding that best fits their needs. The GEH will contribute to maintaining and strengthening Europe's highly competitive position in Agri-Food and Biotechnology research.

Our goal with this website is to provide you with an easy way to learn about GEH and browse to information based on your own choice. The new website gives access to Who we are, How we work, Our consortium, Events, as well as the EU ERA-Nets, EJP and self-sustained networks involved and many more.
